

Bachelors Landing Page (UAE / GCC)

APPROVAL PACK #1 — Work Plan (SOP) + Keywords

Please review and sign §6. Approval #1 starts the content phase.

READ THIS FIRST

What this pack contains:

- 1. What we are building — the page, the audience, the market case (§1)
- 2. How the work will proceed — the full process with the points where you approve (§2)
- 3. The 8 keywords the page will be built around — for your approval (§3)
- 4. The 10 decisions we need from you (fees, durations, proof, photos, URL, etc.) (§4)
- 5. The timeline once approved (§5)
- 6. Your sign-off (§6)

Project status note: the Masters (MBA & MSc) landing page is on hold while your content writer completes the draft against our audit report. This Bachelors page is the active stream and follows the exact same quality process — plan → research → verify → approve → content → design → build → QA → launch, with you approving at each gate.

1. What we are building

A single high-conversion landing page for **undergraduate (bachelors) programmes** aimed at prospects in Dubai, Sharjah, Abu Dhabi and the wider GCC — plus Gulf-based expats (India, Pakistan, Philippines, Egypt). The page sells four routes from your own catalogue:

Route	Awarding university	Programmes	Who it's for
BBA (Bachelor of Business Administration)	Rushford Business School, Switzerland (EduQua + IACBE; 5-star QS Stars for online learning) — with Maverick London dual certification	7 specialisations: Business Administration, Marketing, Finance, HRM, MIS, Hospitality & Tourism, Project Management	Fresh 12th-pass + working professionals
BSc (Bachelor of Science)	Girne American University, North Cyprus (YÖDAK + YÖK; IACBE; ECBE)	10 programmes: Business Mgmt, Tourism & Hospitality, Int'l Business, Psychology, Accounting & Finance, Marketing, HR, Accounting, Economics, MIS	Fresh 12th-pass + career switchers

Route	Awarding university	Programmes	Who it's for
BA (Hons) Global Business	University of the West of Scotland (UK) — programme details to be confirmed with you	1 programme (honours degree)	UK-award seekers, progression to UK MBA
Top-up to UK Honours Degree	Ofqual/QUALIFI Level 5/7 → UK awarding university (to be confirmed: UoG / UCLan)	Fast completion for diploma/HND/credit holders	Experienced professionals who need a degree, fast

Who the page speaks to (3 audiences, one page)

- **Primary — the fresh graduate + parent.** Just finished 12th grade (or 1–2 years in). The student wants a real career; the parent is the co-decision-maker and pays — they care about recognition, cost, safety and “will employers accept it?” The page must satisfy both ears.
- **Secondary — the working professional (22–32).** Already earning; will not quit for a 4-year campus grind. Wants a degree that fits around work — online/weekend-tolerant, no visa, no relocation.
- **Flank — the top-up candidate.** Has a diploma, HND or work experience; wants the fastest legitimate route to a recognised honours degree. Highest-intent buyer in the market.

The market case (why this page will earn its keep)

- UAE higher education admitted **57,035 new students in 2024–25, up 13%** — the highest intake in a decade (MoHESR, via The National, Nov 2025). Dubai private HE grew 20%; international students rose 29% to 35% of its student body (KHDA).
- **Indians are ~42% of Dubai's international intake**, concentrated in business and technology (EducationFair market report, May 2026) — the exact profile your BBA/BSc routes serve. Business & economics is the most-pursued field in the UAE (UNESCO data).
- **The gap:** today's bachelors SERP in the UAE is campus-premium schools (AED 35k–65k/yr + visa + relocation), agent directories, and 12-month “BBA” fast-tracks (AED 3,500–25,000). Nobody credible offers: named universities + no student visa + weekend-tolerant delivery + AED instalments + a physical Gulf office. That is this page.
- **Regulatory tailwind:** since 2023 the UAE MoE has recognised online degrees, and in **March 2025 MoHESR introduced conditional recognition for online/distance degrees** (Gulf News, 10 Mar 2025). No competitor states this on their page — we will, sourced and dated.

The promise (working UVP)

“A real undergraduate degree — from named UK and partner universities — that fits a Gulf life: no student visa, weekend-tolerant delivery, AED pricing with instalments, and a human admissions team in Sharjah who knows attestation, MOHRE and your career move.”

2. How the work will proceed (and where you approve)

The full process is documented in the SOP (internal doc, 8 pages — we'll share the PDF on request). Here is the journey in plain terms. **You approve at three gates; the pipeline waits at each one until you do.**

Step	What we do	You approve?
1. Plan + research	Pipeline plan, market/audience/competitor research, keyword selection — all verified fact-by-fact (done)	This pack = Approval #1
2. Content	Full page copy, section by section, built on your approved keywords + your confirmed fees/durations/proof	Approval #2 — you read the full content

Step	What we do	You approve?
3. Design plan	Visual direction: layout, imagery, recognition strip, colours — as a plan before any design work	Approval #3 — you approve the design plan
4. Build	Developed on your own website's system (Laravel, same pattern as your existing pages), with SEO structured data + form/WhatsApp wiring	Preview link for review
5. QA + launch	Independent quality audit (same standard as your Masters audit report), fixes, then live + tracking	Go-live confirmation

Our quality promise (applies at every step)

Quality standard: every claim on the page must be (a) from your catalogue, (b) a public fact with a source and date, or (c) verified by you. No placeholders, no unverified stats, no “best/guaranteed” language, no university logos without your permission — the same rules that produced your Masters audit report.

3. The 8 keywords the page will be built around

These are the search phrases we propose the page targets — selected from live UAE/GCC search results (Sep 2026) for reach + lead quality. They decide the page's title, headings and SEO. If you want any added or removed, note it in §4 (item 1).

#	Keyword (search phrase)	Why it works (plain words)	Where it appears on the
K1	bachelor's degree in Dubai	The biggest search in this market. Today it's owned by content-farm sites, not a real academy — a trusted page with named universities can take it	Page title, main headline, programme section, FAQ
K2	online bachelor's degree in UAE	Highest lead quality — people searching this want exactly what you offer (online, no relocation)	Main sections, recognition section, FAQ, meta description
K3	BBA in Dubai / BBA in UAE	The most-searched degree name at undergraduate level; huge volume	Programme cards, fees section, FAQ, secondary title
K4	top universities in Dubai for bachelor's	Top-of-funnel: students comparing universities before they decide. We capture the comparison shopper with a “where you'll study” block	Where-you'll-study block, comparison table, FAQ
K5	bachelor's degree in Sharjah	Your unique asset — your UAE office is in Sharjah. Local search = proximity trust no online agent can match	Recognition strip, people/office section, footer, local ads
K6	no visa required bachelor's degree UAE	Nobody in the market owns this phrase. It answers the #1 objection (student + parent) with your no-relocation model	Headline sub-line, FAQ, meta description
K7	affordable bachelor's degree in UAE / bachelor fees	Price-first searchers (large share is Indian expats). We win with AED transparency + honest comparison vs campus and vs 12-month mills	Fees section, comparison table, FAQ
K8	top-up bachelor's degree UAE	Smaller search, highest conversion — the buyer is ready and time-boxed (diploma/HND holders completing a degree)	Dedicated top-up card, FAQ, secondary title

Supporting phrases (woven naturally into copy, not headlines): weekend classes · study while working in UAE · AED instalments · rotational intake · Ofqual/QUALIFI · degree attestation · MOHRE · English-medium · progression to MBA · Robot Park Tower · since 2012.

4. The 10 decisions we need from you

Mark ✓ / note per item. Items 1-2 unlock the content phase immediately; items 3-7 are needed before content is final (Approval #2); items 8-9 before the design plan (Approval #3).

#	Decision / input needed	Options / details	Needed by
1	Confirm the 8 keywords (§3)	Approve as-is / add / remove (note which)	Approval #1
2	Page web address (URL)	Option A: /bachelors-dubai (recommended — matches K1 exactly) · Option B: /bachelors-dubai-uae	Approval #1
3	Durations per route	BBA: ____ · BSc: ____ · BA (Hons): ____ · Top-up: ____ (one duration per route — the page will state exactly one per route)	Approval #2
4	Fees + payment structure	AED fee per route + instalment plan (the fees section and comparison table need your confirmed numbers; competitor prices we already cite are verified from public listings)	Approval #2
5	Top-up awarding university	Which UK university awards the honours degree on the top-up route (UoG / UCLan / other)?	Approval #2
6	Intake calendar	Next intake month(s) for the announcement bar + “hows it works” (we only use real dates — no fake urgency)	Approval #2
7	Proof assets	2-3 bachelors student stories with permission to name them (quote + name + city); any verified stats you want on the page (with source)	Approval #2
8	Photos	Sharjah office (Robot Park Tower) + admissions team photos (real photos only — they carry the local-trust story)	Approval #3
9	University logo permissions	Which partner university marks may we display (UWS / RBS / GAU / top-up university)? Where we don't have permission, we use text names only	Approval #3
10	Claims you want / don't want	Any claims or numbers you specifically want on the page (and sources), or any competitor names you want mentioned explicitly	Anytime

5. Timeline once approved

Day	Milestone	You see
D0	Approval #1 received (this pack) — content phase starts	—
D1-D2	Research lock (already done + verified)	—
D3-D4	Positioning + 16-section structure	Structure outline if you want visibility
D4-D5	Full page copy written (16 sections, keyword-optimised)	Approval #2 — full content for your review
D6	Design plan (visual direction, imagery, layout spec)	Approval #3 — design plan for your review
D7-D9	Build on your website system + SEO structured data + form/WhatsApp wiring	Preview link (yours to click, test, share internally)
D10	Independent QA audit + fixes	QA report (same format as your Masters audit)
D11-D12	Go-live + tracking verification	Live page + performance dashboard

Working days from Approval #1, assuming decision items arrive with the sign-off. Client-side items (fees, durations, photos, permissions) are the usual float — everything else is on our clock.

6. Your sign-off (Approval #1)

By signing, you approve: (1) the work plan / SOP summary in §2, (2) the 8 keywords in §3, and (3) the project scope in §1 — releasing us to start content writing. Content itself will be separately approved by you (Approval #2) before any design or build work begins.
