Prepared for client review. All figures below are computed directly from the final page content.

3,113	18	16
words on page (target 3,000 to 3,500)	page sections, live page order	keyword phrases, one home each
12	60	100%
FAQ answers with FAQPage schema	reading ease: conversational business English	original content, 0% copied

1. Executive Summary

The landing page content is final, client-ready copy of 3,113 words across 18 sections, written in plain English for working professionals in the UAE and the wider GCC. Every keyword is placed exactly where it should rank, every claim traces to a dated source, and the copy passed all quality, originality, and search-optimization checks in this report. Two sections (Journey and Compare) were added to the existing page design; no other design element is disturbed.

2. Content Quality

Reading ease scores 60 out of 100 (conversational business English), with an average sentence of just 12 words: the sentence structure is lighter than most business writing, and the score sits where professional-audience copy normally sits, since the subject itself carries terms like accreditation and specialization. The tone is direct and conversational: short sentences, everyday vocabulary, no jargon for its own sake, no hype. Tables carry the numbers (fees, class profile, comparison) so facts are scannable, and every FAQ answer opens with a direct response before any detail.

Check	Result	Status
Em dashes	0	PASS
En dashes	0	PASS
Flagged AI vocabulary (delve, leverage, seamless, etc.)	0	PASS
Flagged AI phrases (it is important to note, etc.)	0	PASS
Exclamation marks	0	PASS
Placeholders or TBD tokens	0	PASS
Hedge patterns (not just)	0	PASS
Hedge pattern (whether you)	1 (allowed once)	PASS

Zero flagged AI vocabulary, zero dashes used as sentence punctuation, zero placeholders: every draft passes a humanization pass before delivery.

3. Originality & Copyright

Check	Method	Result
External duplication	Distinctive sentences from the copy searched on the open web	0 matches

Check	Method	Result
Internal duplication	Copy scanned against the live site and other Maverick landing pages	0 overlapping passages
Source-backed claims	Every figure (fees, durations, recognition process) mapped to dated, cited sources	100% traced

Originality ratio: 100% original, 0% copied. The content is written from scratch for this page; market figures are public facts restated in our own words with sources on file. On payment, full copyright in the copy transfers to the client.

4. SEO & AEO Optimization

Meta title (54 characters, within the 60-character limit): Online MBA in UAE & Dubai for Professionals | Maverick

Meta description (151 characters, within the 160-character limit): University-awarded online MBA and Master's degrees for UAE and GCC professionals. No student visa, AED instalments, Sharjah office. Start your enquiry.

One H1-equivalent hero heading and a strict H2/H3 hierarchy matching the 18 page sections. FAQPage structured data is generated 1:1 from the 12 FAQs so search engines can serve them as rich results, and answer-first FAQ writing targets AI answer engines (AEO): each question gets a direct, self-contained answer in its first line. Local relevance comes from genuine GCC signals (Dubai, Abu Dhabi, Sharjah, Riyadh, Muscat, Doha, AED instalments, the MoHESR recognition route) rather than keyword repetition.

Keyword phrase	Section(s)	Uses	Density
MBA for working professionals in UAE	4	1	0.19%
MBA specializations in UAE	6	1	0.13%
Dubai for working professionals	3	1	0.13%
flexible payment plan	10	1	0.1%
September 2026 intake	1, 5, 17, 18	4	0.39%
International MBA	13	1	0.06%
admission requirements	5, 17	2	0.13%
MBA fees in UAE	10	1	0.13%
MBA scholarship	10, 17	2	0.13%
fast-track MBA	16, 17	3	0.19%
Part-time MBA	16, 17	2	0.13%
Affordable MBA	7	3	0.19%
Flexible MBA	4	1	0.06%
MBA in Dubai	3, 10, 17	4	0.39%
MBA in UAE	4	1	0.1%
Online MBA	1, 16	3	0.19%

Every keyword stays under 1% density: strong topical coverage with zero stuffing. The canonical URL, internal links to the ranking guide and the official MoHESR page, and the schema spec ship with the content for the build team.
