

Publish-Blocker Resolution Report

Deep-research verification and correction of the four publish-blocking issues identified in the Education FAQ content pack

Blockers identified	4
Blockers resolved	4
Content files updated	7
Publication status	On hold - awaiting approval

Prepared for client review - 19 August 2026
Confidential. Not for publication until approved.

Executive Summary

Before publication, four issues were flagged as publish-blockers: unverified programme durations, unconfirmed accreditation wording, an unconfirmed programme structure, and conflicting entry criteria. Each was investigated against official and corroborated sources, and the approved FAQ content has been corrected accordingly. All four blockers are now closed. The remaining open items (fee amounts, exact English-test thresholds, and internal progression agreements) require partner offer sheets and cannot be resolved through public research; they are listed at the end of this report.

Blocker 1 - Programme Durations (RBS & GAU)

The issue. Initial drafts relied on third-party directory figures: RBS MBA "12-24 months", RBS MSc "18-24 months", GAU MBA "1.5-2 years" (unverified) - and the RBS BBA duration was missing entirely. Publishing an incorrect duration risks a wrong featured snippet that persists in caches even after correction.

Research findings.

- The official Rushford admissions portal publishes a nominal duration of **16 months (90 ECTS)** consistently across MBA specialisation pages.
- Official Rushford MSc pages publish a three-route structure: **60 ECTS (~12 months), 90 ECTS (~18 months, master's thesis), 120 ECTS (~24 months, capstone consulting project)**.
- The official Rushford BBA page publishes **180 ECTS across 6 semesters (~36 months)**.
- GAU master's programmes are consistently described across independent sources as **~2 years (4 semesters)**, with shorter completion possible by route - supporting a published "1.5-2 years" range.

Resolution applied. All duration answers were replaced with the official figures; the BBA duration was added; every obsolete third-party range was removed.

Sources. *apply.rushford.ch* official course pages (MBA specialisations); *rushford.ch* official programme pages (MSc Business Management, BBA); corroborating independent directories for GAU.

Blocker 2 - Accreditation & Regulation Wording

The issue. It was unconfirmed whether Gatehouse and Qualifi diplomas could be described as regulated qualifications; GAU's recognising authorities carry country references in their full names, conflicting with the strict globally-neutral content policy; and university heritage claims (founding dates) were unverified.

Research findings.

- **Gatehouse Awards** is confirmed as an awarding organisation **recognised by Ofqual** (Office of Qualifications and Examinations Regulation). Its Level 7 Diploma in Education Leadership & Management is verified on the official Gatehouse site as a regulated qualification: **QAN 610/7539/5**, TQT 1200, assessed by coursework and portfolio of evidence.
- **Qualifi** is confirmed as **approved and regulated by Ofqual (regulator reference RN5160)**; its qualifications carry unique accreditation numbers on the Regulated Qualifications Framework (e.g. Level 5 Extended Diploma in Business Management, QAN 610/1675/5, 240 credits).
- For GAU, the recognising authorities can be referenced by acronym alone - fully accurate and free of any country descriptor.

Resolution applied. Regulator recognition statements were added to the Gatehouse and Qualifi content with exact regulator naming; Gatehouse assessment wording was corrected to "coursework and portfolio

of evidence"; GAU's authorities are now referenced country-neutrally as "the higher-education authorities YODAK and YOK" alongside IACBE international accreditation; university heritage remains as neutral phrasing ("long-established public university") with no dates - the lowest-risk accurate formulation.

Sources. *gatehouseawards.org (official qualification specification); regulated-qualification listings confirming Gatehouse's Ofqual recognition; Qualifi delivery-centre specifications citing Ofqual reference RN5160 and QANs; Maverick programme data (primary) for GAU recognitions.*

Blocker 3 - UWS BA (Hons) Global Business: Top-Up Structure

The issue. Three answers (programme meaning, duration, entry requirements) depended on a top-up-route assumption drawn from a single partner source.

Research findings.

- Three independent partner institutions delivering this UWS award describe it identically: a **top-up degree awarded by the University of the West of Scotland**, completed in **~12 months**, delivered **100% online**, with entry via a **completed HND or equivalent qualification, or relevant work experience (subject to approval)**.

Resolution applied. The top-up structure, 12-month duration and entry criteria were confirmed and firmed in the content; all assumption flags were removed.

Sources. *Independent partner-institution programme pages (three separate providers with consistent details).*

Blocker 4 - UCA Global MBA: Entry-Criteria Conflict

The issue. The official Rushford admissions portal lists entry as a bachelor's degree in any discipline, while another listing of the same UCA award required minimum age 21, 3+ years' management experience and higher English scores.

Research findings.

- The stricter criteria belong to a **different delivery partner's route** to the same UCA award. The listed offer is explicitly the **Rushford-delivered route** ("Global MBA + Rushford Business School"), for which the official portal publishes: **bachelor's degree (or equivalent) in any discipline**.

Resolution applied. Source hierarchy was applied: the official criteria for the correct delivery route were retained and the conflict was closed with a clarification recorded in the content notes.

Sources. *apply.rushford.ch official Global MBA (via UCA) course page, compared against the alternate delivery partner's listing.*

Bonus Finding

Official Rushford portal pages confirm that each MBA specialisation also carries an **Ofqual-regulated Level 7 Diploma award by default** - added to the MBA content as a value point. The portal's accompanying "WES approved" phrasing remains excluded under the project's compliance policy (equivalency claims require separately verified sources).

Outstanding Items (require partner offer sheets)

- Fee amounts and billing currencies for all providers (UCA figures are portal-published: CHF 9,900 one-time, or CHF 1,800 + 6 x CHF 1,400 - to be reconfirmed per intake).

- Official English-proficiency thresholds per provider and level.
- Portfolio progression agreements (Qualifi L7 Law to UOW LLM feeder; L5 to degree top-up receiving programmes; L3 to L5 internal ladder).
- GAU delivery-mode confirmation per category (esp. Psychology, EMBA, PhD) and exact entry thresholds.
- Accreditation numbers for the remaining three Gatehouse Level 7 diplomas.

Status: content is verification-complete to the limit of public sources and is held unpublished pending client approval.
