Page title: Bachelor's Degree in Dubai | UK-Awarded, No Visa | Maverick

Page description: UK-awarded BBA, BSc & BA (Hons) in Dubai, Sharjah & the GCC. Online & weekend-tolerant, no student visa, AED instalments. WhatsApp admissions.

Top bar

Online bachelor's routes with no student visa needed. Speak to an admissions counsellor in Sharjah on WhatsApp or by phone.

Opening section

Main heading: Earn your bachelor's without leaving the Gulf, quitting your job or stretching your budget.

Supporting line: Study for a bachelor's degree in Dubai, Sharjah or Abu Dhabi, and anywhere else in the GCC, through online and weekend-friendly routes from UK and partner universities you can check by name.

Four points of reassurance:

- Degrees awarded by UK and partner universities
- No student visa needed
- Study around your weekends
- Admissions office in Sharjah

A line for students and for parents: Students get a real degree that fits around work and family life. Parents get facts they can check, fees put in writing, and an office they can walk into.

Enquiry form, titled "Start my enquiry", with these fields: full name, phone or WhatsApp, email, programme of interest (BBA, BSc, BA (Hons), top-up, not sure yet), and country. Under the form: A counsellor will call you within one working day. No payment, no commitment.

Buttons and links: **Start my enquiry** · Questions first? Chat on WhatsApp · Short on time? Ask for a call.

The universities behind the degrees

- Rushford Business School, Switzerland. Holds the Swiss EduQua quality label and IACBE accreditation, with five QS stars for teaching and online learning.
- Girne American University, North Cyprus. Recognised by YÖDAK and YÖK, with IACBE accreditation for its business programmes.

- University of the West of Scotland. A UK bachelor's degree you can study online from the UAE.
- QUALIFI and Gatehouse diplomas, regulated in the UK by Ofqual, the qualifications regulator.
- The UAE Ministry of Higher Education and Scientific Research (MoHESR) published its rules for recognising online degrees on 10 March 2025. This page quotes those rules, with the date.
- Maverick Business Academy: London headquarters since 2012, UAE office at Robot Park Tower, Sharjah.

The questions families ask first

"Will employers respect an online degree?" The UAE's own ministry published recognition rules for online degrees in March 2025. We print those rules on this page, with the date and the conditions, in the recognition section below.

"Campus study means AED 35,000 to 65,000 a year, before the visa and the move. Where does the money go?" Our fees are in AED, paid by instalment, and given to you in writing before you pay anything. The fee section below shows what the market charges, with sources.

"I already work full-time. When would I study?" The programmes here are taught online with weekend-friendly timetables, so your job stays and your degree moves.

"Those 12-month BBA offers look cheap. Are they safe?" The 2025 ministry rules say a recognised degree must follow the approved programme structure, and a 12-month timeline may not meet that test. We do not sell that kind of product, and the comparison table below shows why.

Chart on this section: a pie showing Dubai's private university students in 2024–25, 35% international and 65% local, with the caption "International enrolment in Dubai's private universities grew 29% in one year." Source line shown on the page: KHDA, Dubai's education regulator.

Who this page is for

School leavers and their families. You finished 12th grade, or you are a year or two out. You want a career, and your parents want straight answers: is the degree recognised, what does it cost, who supports the student, will employers accept it? This page answers all four, and a counsellor goes through the choices with your family. Button: **Talk about my options.**

Working professionals. You earn a salary, and you are not giving it up for four years on a campus. You need a degree that fits around a job: taught online, friendly to weekends, no visa, no move, and a real person to call when something is unclear. Button: **Find my programme.**

Diploma, HND and credit holders. You already did the coursework. You want the legitimate way to finish, with every institution named. The top-up route turns Ofqual-regulated diplomas into a UK honours degree, and it is the quickest serious option on this page. Button: **Check my top-up route.**

The four ways to study

BBA, Rushford Business School (Switzerland). Seven specialisations, taught 100% online with live, interactive lectures, and dual certified with Maverick Business Academy, London. If you want an online BBA in UAE with the awarding school on the certificate, this is it. Specialisations: Business Administration, Marketing, Finance, Human Resource Management, Management Information

Systems, Hospitality & Tourism Management, Project Management.

BSc, Girne American University (North Cyprus). Ten programmes across business, psychology and economics, taught in English. If you want an online BSc in UAE while you keep working, ask your counsellor which programmes fit your week. Programmes: Business Management, Tourism and Hospitality Management, International Business Management, Psychology, Accounting and Finance Management, Marketing, Human Resources Management, Accounting, Economics, Management Information Systems.

BA (Hons) Global Business, University of the West of Scotland. One UK honours degree for students who want a UK university on the certificate while they study from the Gulf.

The top-up route, for diploma, HND and credit holders. Ofqual-regulated QUALIFI Level 5 and Level 7 diplomas are topped up into a UK honours degree. The Level 5 catalogue covers 14 specialisations, including Law, IT and Cyber Security, so non-business diplomas fit too. The awarding university is confirmed at your counselling call.

A small checker on the top-up card answers three situations:

- "I hold a diploma." Your diploma can map to a Level 5 entry, and the final stage is the UK honours top-up. Fourteen Level 5 specialisations are open to you, so law, IT and cyber diplomas fit as well as business ones.
- "I hold an HND." An HND sits at Level 5. We match your award and units against the route map, then confirm your final stage in writing.
- "I have university credits." The awarding university checks your credits against its own entry map. We arrange that check before you commit to anything.

Where this leads: finishing a bachelor's here is a step, not a dead end. Rushford offers 12 MBA specialisations and 9 MSc routes, Girne American adds 6 MBAs, 16 EMBA's and research MScs, and Ofqual Level 7 diplomas keep the path going. Many students plan both degrees in one counselling call.

Every programme, listed by name

The full catalogue, exactly as our partner universities list it. On the page you can filter this table by subject area. Your counsellor confirms how each programme is taught.

Programme	University	Subject area	Popular
BBA Business Administration	Rushford Business School	Business management	In demand
BBA Marketing	Rushford Business School	Marketing	In demand
BBA Finance	Rushford Business School	Finance & accounting	In demand
BBA Human Resource Management	Rushford Business School	Human resources	

BBA Management Information Systems	Rushford Business School	IT & information systems	
BBA Hospitality & Tourism Management	Rushford Business School	Hospitality & tourism	
BBA Project Management	Rushford Business School	Business management	
BSc Business Management	Girne American University	Business management	
BSc Tourism and Hospitality Management	Girne American University	Hospitality & tourism	
BSc International Business Management	Girne American University	Business management	In demand
BSc Psychology	Girne American University	Psychology	In demand
BSc Accounting and Finance Management	Girne American University	Finance & accounting	In demand
BSc Marketing	Girne American University	Marketing	
BSc Human Resources Management	Girne American University	Human resources	
BSc Accounting	Girne American University	Finance & accounting	
BSc Economics	Girne American University	Economics	
BSc Management Information Systems	Girne American University	IT & information systems	
BA (Hons) Global Business	University of the West of Scotland	Business management	

Under each row: **Ask about this programme.**

How it works

- 1. Tell us about yourself.** Five fields, or a WhatsApp message. Where you are, what you studied, what you want the degree to do.
- 2. Speak to a counsellor within one working day.** Routes, recognition, budget: straight answers from a person in Sharjah, not a call-centre script.
- 3. Get your plan in writing.** Programme, awarding university, fee and instalments in AED, before you pay anything.
- 4. Enrol and begin.** You start at the intake your counsellor confirms, and you study online or around weekends while life carries on.

Who can apply:

- Just finished 12th grade, or planning from school: the BBA and BSc programmes are built for you.
- Working full-time in the Gulf: the online BBA and BSc options fit around your shifts.
- Holding a diploma, HND or university credits: the top-up route checks your documents first.

About intakes: your counsellor confirms the next intake for your chosen programme and holds your place once your documents are ready.

Recognition in the UAE, explained simply

Is an online bachelor's degree valid in the UAE? Yes, under the current 2025 rules, with conditions. On 10 March 2025, MoHESR published its policy for degrees earned through distance, online, open or correspondence study. Recognition is conditional: the awarding institution must be accredited in its home country, the programme must follow its approved structure, and credit transfers must be licensed. The recognition fee for a bachelor's degree is Dh100, verification runs through Dataflow or QuadraBay, the whole process is online, takes around 30 working days, and there is a three-month appeal window. The UAE's Ministry of Education began recognising online degrees in 2023, with Engineering, Medicine and Law excluded.

Private jobs and government jobs. For most private-sector jobs, an accredited degree plus verification is enough. The formal Certificate of Recognition is the document needed for government roles, regulated professions and some visa categories. Confirm your category with a counsellor before you enrol, and we will walk you through it.

Work permits. MOHRE accepts accredited online and distance degrees for work permits, and a bachelor's degree is expected for most professional salary bands of AED 4,000 to 8,000 a month.

Putting a UK degree to use in the UAE. The standard route is a UK FCDO apostille, then UAE Embassy and MOFA stamping, with Dataflow or QuadraBay verification as the usual first step. We guide our students through every stage. This is guidance, not legal advice.

Our promise. We make no visa promises and no blanket recognition promises. What you get is the dated policy, the conditions in plain words, and a counsellor who knows both.

What the degrees lead to (roles, not salary promises):

- BBA: business operations, marketing coordination, HR administration, hospitality supervision, project support, client-facing finance roles.
- BSc Business Management and International Business Management: management trainee, international trade support, business development.
- BSc Accounting and Accounting and Finance Management: accounting, audit support, finance operations.
- BSc Psychology: HR, training and development, market research, community and social services support.
- BA (Hons) Global Business: international operations, supply and trade coordination, business analysis.
- Top-up graduates: the same roles, with the honours degree many employers ask for.

Fees, in plain numbers

What the market actually charges, with sources you can check:

- Campus bachelor's programmes in Dubai run AED 35,000 to 65,000 a year (published fee guides, Jan 2026). For Indian families in the UAE, that is roughly INR 7.7 lakh to 14.5 lakh a year at early-2026 rates.
- Premium international BBA programmes are listed between AED 33,000 and 110,000, and one well-known Dubai school lists its online BBA at AED 100,000 over four years (fee tables, Apr 2026).
- Standard and UK top-up programmes sit in the AED 12,000 to 23,600 band (fee tables, Apr 2026).
- Fast-track "12-month BBA" offers run AED 3,500 to 25,000 in total, and they carry the recognition risk explained above (market survey, Sep 2026).

Where Maverick sits: a campus degree in Dubai costs AED 35,000 to 65,000 a year, plus the visa and the move. A 12-month mill costs AED 3,500 to 25,000, plus a recognition risk. Maverick is the sensible middle: a degree from UK and partner universities you can check by name, no student visa, weekend-friendly study, AED instalments, and a real office in Sharjah.

Instalments: every plan is priced in AED, payable by instalment, and put in writing before you commit anything. No surprise lines.

Chart on this section: a bar chart of total degree cost in AED. Campus over three years: AED 105,000 to 195,000. The well-known Dubai school's online BBA over four years: AED 100,000. The fast-track band: AED 3,500 to 25,000. Source line shown on the page.

Button: **Get my programme & fee plan.**

How the three options compare

Comparing universities for a bachelor's in Dubai? Start with the question most listicles skip: who actually awards the degree?

Question	Flexible study with Maverick	Campus university	12-month fast-track
Who awards the degree?	UK and partner universities, listed by name on this page	The campus institution itself	Varies by provider. Check the awarding body.
Recognition story	The 2025 MoHESR policy, explained with dates and conditions	Straightforward for campus degrees	Conditions may not be met. Short timelines are the risk.
Student visa	Not needed for online routes	Required	Usually not needed
Study format	Online, weekend-friendly, around your job	Full-time on campus	Compressed. Check the structure.
Cost	AED, instalments, written plan up front	AED 35,000 to 65,000 a year, plus visa and relocation	AED 3,500 to 25,000 total, plus recognition risk

Support	A counsellor in Sharjah, within one working day	Campus services	Sales-led. Check the fine print.
---------	---	-----------------	----------------------------------

Footnote: campus and fast-track figures from published fee guides, Jan and Apr 2026.

The market right now

- 57,035 new students entered UAE higher education in 2024–25, up 13%: the highest intake in a decade (ministry data).
- Dubai's private universities grew 20% in a year, and international enrolment rose 29% (KHDA).
- Business and economics is the most-studied field in the UAE (UNESCO data).
- More than 400 bachelor's programmes are listed in the UAE. Very few combine UK and partner universities, no student visa, and a physical office in the Gulf.
- Maverick: London-headquartered since 2012, with a UAE office at Robot Park Tower, Sharjah.

Student stories appear on the page once each student has signed permission, with their programme and intake. Photos on the page are real photos of the Sharjah office and team.

Meet us in person or online

Our UAE office is at Robot Park Tower, 2nd Floor, Sharjah, and our headquarters has been in London since 2012. Every enquiry gets a counsellor, and you can ask for yours by name on any call. We work with students and families across Dubai, Sharjah, Abu Dhabi and the wider GCC: Riyadh, Doha, Muscat, Kuwait City, Manama. Families reach us from Ajman too, and our Google business profile carries the address, hours and directions.

Once a month, we host a "meet your counsellor" session at the Sharjah office. Sit with an admissions counsellor, ask everything, and leave with a written plan. Sessions are booked on WhatsApp.

Questions and answers

1. Is an online bachelor's degree valid in the UAE? Yes, under the current 2025 MoHESR rules. The 10 March 2025 policy recognises degrees earned through distance, online, open or correspondence study, provided the institution is accredited at home, the approved programme structure is followed, and credit transfers are licensed. Online routes need no student visa. Confirm your personal category with a counsellor before you enrol.

2. Do I need a student visa to study with Maverick? No student visa is needed for our online routes. You stay in your city, keep your current visa status, and study from Dubai, Sharjah, Abu Dhabi or anywhere in the GCC. If you ever prefer campus life abroad, we also run relocation pathways, and we will say so clearly.

3. How long does a bachelor's degree in Dubai take through your routes? Each awarding university sets its own length, and your written plan states yours before you commit. What never changes: it is a full bachelor's degree with the full credit load, not a compressed product. Top-up students complete the final stage of an honours degree after their diploma, HND or credits are checked.

4. What does a BBA in UAE cost with you, and can I pay by instalment? Plans are priced in AED and payable by instalment, and you receive the full fee plan in writing before any payment. For comparison, campus programmes run AED 35,000 to 65,000 a year, and 12-month offers at AED 3,500 to 25,000 carry recognition risk under the 2025 rules. Your counsellor quotes your exact plan on the first call.

5. Can I really study while working full-time? Yes. Teaching is online with weekend-friendly timetables, which is why most of our working students keep their jobs through the degree. Live sessions are planned with working people in mind, and your counsellor maps the weekly load with you before you enrol.

6. What is a top-up bachelor's degree in UAE? It is the legitimate way to complete a bachelor's degree fast. Ofqual-regulated QUALIFI Level 5 and Level 7 diplomas are topped up into a UK honours degree. The Level 5 catalogue covers 14 specialisations, including Law, IT and Cyber Security. Bring your transcript to the counselling call: we check it before you commit.

7. How does the stamping process work for a UK degree? The standard route is a UK FCDO apostille, then UAE Embassy and MOFA stamping, with Dataflow or QuadraBay verification as the usual first step for recognition. We guide our students through every stage. This is guidance, not legal advice.

8. When can I start? Intake windows run through the year, and your counsellor confirms the next one for your chosen programme on the first call. Once your documents are ready, we hold your place. We only ever quote real intake dates.

9. Can I do an MBA after this? Yes, and the path is already built. Rushford offers 12 MBA specialisations and 9 MSc routes, Girne American adds 6 MBAs, 16 EMBA's and research MScs, and Ofqual Level 7 diplomas are available too. Many of our students plan both degrees in one counselling call.

10. What should my parents check before I enrol? Three things. The awarding university by name, on the page and in your written plan. The dated 2025 recognition policy, and where your category stands. And us: London headquarters since 2012, a UAE office at Robot Park Tower, Sharjah, and a counsellor your parents can speak with directly. If any provider hides any of the three, walk away.

The last step

Heading: One enquiry. One counsellor. One written plan.

The form asks for five things: full name, phone or WhatsApp, email, programme of interest (BBA, BSc, BA (Hons), top-up, not sure yet), and country. Button: **Start my enquiry**. Link: Ask for a call.

Four short reassurances under the form: No fees to ask. A counsellor calls within one working day. Programme, university and instalments in writing, before you pay. WhatsApp us anytime.

After submitting: Thank you. Your enquiry is with our admissions team in Sharjah, and a counsellor will call you within one working day. In the meantime, chat with us on WhatsApp, and download your programme and fee plan outline.

What we send after an enquiry

Within minutes, a WhatsApp acknowledgement: Thank you for your enquiry. It is with our admissions team in Sharjah now. A counsellor will call you within one working day to talk through routes, recognition and fees. If anything is urgent before then, reply here on WhatsApp.

On day three, a short explanation note for the family, titled "Is an online degree valid in the UAE? The 2025 rules, in plain words." It covers the 10 March 2025 MoHESR policy with its conditions, the 2023 background and the excluded fields, the difference between private and government jobs, MOHRE work permits, the stamping route for UK degrees, and what to verify before enrolling anywhere. Every fact carries its source.

On day seven, a note for parents answering five questions: Is this degree real? Who awards it? What does it cost and how do we pay? Will employers accept it? How do we verify Maverick? The answers repeat the facts on this page: the awarding university by name, AED pricing with instalments in writing, private-sector acceptance with verification, the equivalency route for government roles, and our London headquarters since 2012 plus the Sharjah office you can visit any working day.

If an intake date changes, we send a reminder with real dates only.
